

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (currently amended) A system for reminding patients or caregivers what medication to take or administer, how to take and administer the medication, and when to take or administer the medication comprising:

a color-coded sheet;

said sheet depicting one or more rows, wherein one or more of said rows are completely color shaded, and one or more columns, said rows and columns intersecting to form a matrix, said matrix comprising a plurality of fields;

said rows and columns further including headers, said headers defining parameters of said row or column and of said fields;

said headers including medical markings; and

one or more color coded medication containers.

2. (currently amended) The system of claim 1 wherein said rows are fully shaded in different colors.

3. (original) The system of claim 1 wherein said medical markings include indicators of medications.

4. (previously presented) The system of claim 3 wherein said medications relate to ophthalmology.

5. (original) The system of claim 4 wherein one of said markings designate which eye to place medication within.

6. (previously presented) The system of claim 3 wherein said color coded sheet further includes one or more advertising markings and one or more of said advertising markings correspond to one of said indicators of medications.
7. (original) The system of claim 1 wherein said color coded sheet further includes one or more areas for placing advertising markings.
8. (previously presented) The system of claim 1 wherein said markings include icons and at least one of said icons is a graphic representation of a time period within a day.
9. (original) The system of claim 1 wherein said markings include indicators of medication, where to administer said medication, when to administer said medication and comments on administering said medication.
10. (currently amended) A method of reminding a patient or caregiver when to take or administer medication comprising the steps of:
  - a) placing information upon color coded sheets having fully shaded color coded rows,
  - b) applying colored indicating devices to one or more containers of medication.
11. (canceled)
12. (canceled)
13. (currently amended) The system of claim 1 wherein said one or more color coded containers includes a color coded cap corresponding to the color of said completely color shaded row.

14. (currently amended) The system of claim 1 wherein each of said one or more completely color shaded rows includes a field in which a sticker depicting the color shade of that row may be placed.

15. (previously presented) The system of claim 14 further including a sticker within said field in each of said one or more rows.

16. (previously presented) The system of claim 3 further including one or more coupons within said color-coded sheet wherein one or more of said coupons correspond to one of said indicators of medications.

17. (currently amended) A system for reminding patients or caregivers what medication to take or administer, how to take and administer the medication, and when to take or administer the medication comprising:

    a tablet of multiple sheets of color-coded paper;

    each sheet depicting one or more rows wherein said rows are entirely color shaded and one or more columns, said rows and columns intersecting to form a matrix, said matrix comprising a plurality of fields;

    said rows and columns further including headers, said headers defining parameters of said row or column and of said fields;

    said headers including medical markings; and

    one or more color coded medication containers.

18. (previously presented) The system of claim 3 wherein said color coded sheet further includes on or more areas for placing advertising markings.

19. (previously presented) The system of claim 3 wherein said color coded sheet further includes one or more advertising markings and one or more of said advertising markings correspond to a pharmacy where said sheet may be used.
